BEAD LEGEND

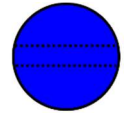

ROUND BEAD 10/0
(A)

ROUND BEAD 10/0
(B)

SUPERDUO

PEARLS 10 MM

Z BEADS

FACETED ROUNDELLE 6X4 MM

EARWIRE 14 MM

- Round Beads A
- Round Beads B
- Super Duo
- n. 6 Pearls 10 mm
- Z Beads
- n. 12 Faceted Roundelle 6x4 mm
- n. 02 Leverback Earrings or disc earstuds or similar
- Size 12 beading needle
- Crystal braided beading thread size 0,15 mm

Recommended: Beading mat, beading lamp.

Level: Intermediate;

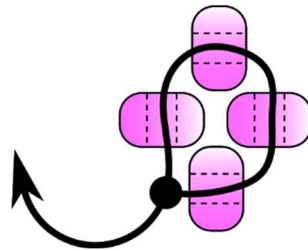

Techniques: familiar with bead weaving, familiar working with two holes beads.

Finished Size: lenght 6,5 cm (2,55 inches) earwire excluded. Width 1,5 cm (0,59 inches).

Step 1. Prepare the needle with 50 cm of thread (19 inches) leaving a thread tail of 15 cm (5,90 inches).

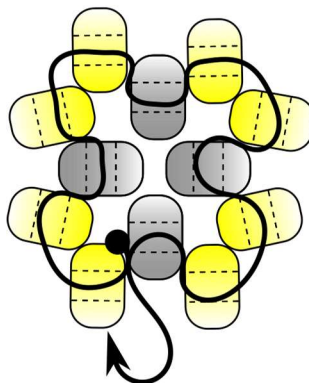

String four Round beads 10/0 color A as shown in the diagram and make a knot. Go through the work several times to strenghten it.

STEP 1

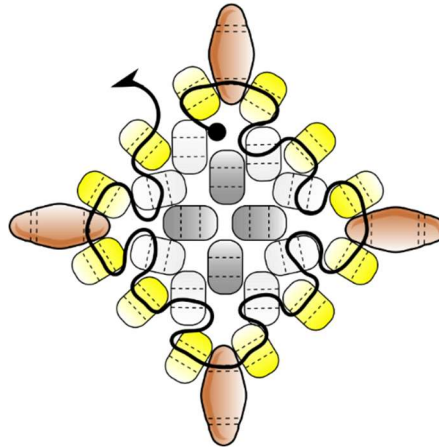

Step 2. Exiting from one Round bead 10/0 color A, string two Round beads 10/0 color B and go through the Round bead 10/0 colour A. Repeat three times. Please take not that if you are willing to use a disc earstud instead of an earring leverback (see Step 14), you can insert it here at this step.

STEP 2

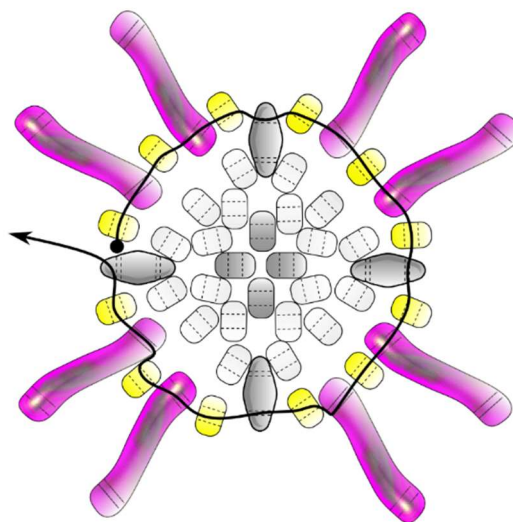

Step 3. Exiting from the bead as shown in the diagram, string one Round bead 10/0 color B, one Superduo, one Round bead 10/0 color B , go through the Round bead added in the previous Step, string one Round bead 10/0 color B, go through the next bead. Repeat three times.

STEP 3

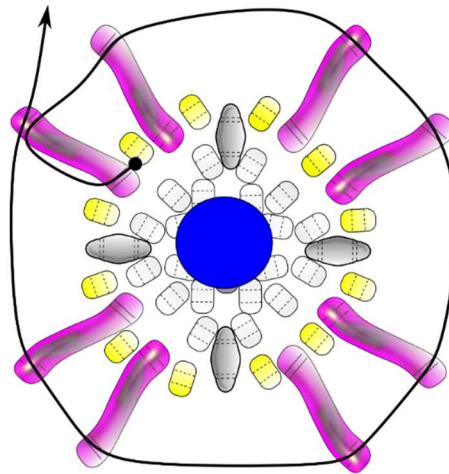

Step 4. Exiting from the upper hole of the Superduo as shown in the diagram, string one Round bead 10/0 color B, one Z Bead, one Round bead 10/0 color B, one Z bead, one Round bead 10/0 color B and go through the upper hole of the next superduo. Repeat three times.

STEP 4

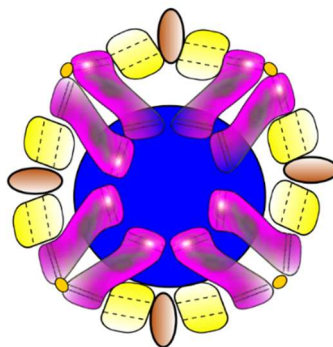

Step 5. Exiting from the upper hole of the Z Bead as shown in the diagram, go through the upper hole of all the Z beads added in the previous Step. Place one 10 mm pearl in the center and close *in circle* all Z beads.

STEP 5

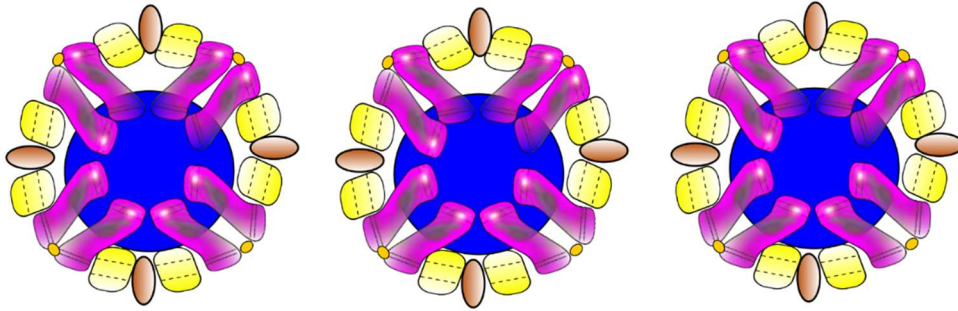

Step 6. Go through the work several times to turn Z beads on themselves and strengthen them well to block up the pearl.

STEP 6

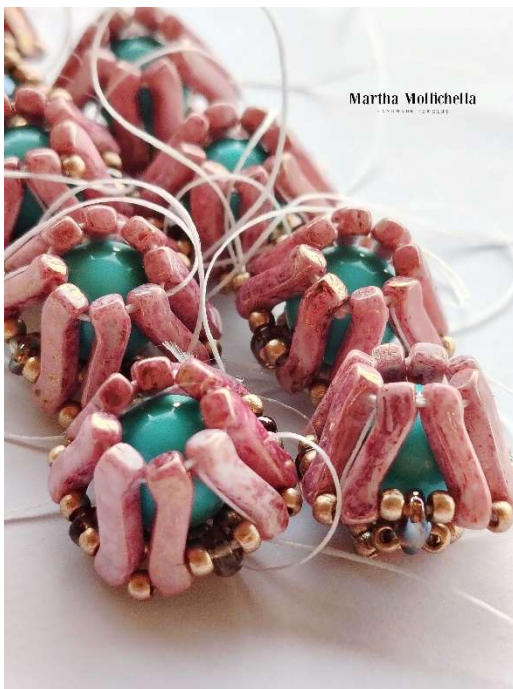

Step 7. Repeat from Step one to Step six create two more modules. We will need three modules to make one earring. In this diagram I am showing the Side A of the modules (Lenù), the same as in the picture below (left). Side B (Lila) is visible in the picture below (right). This is what we have to achieve.

STEP 7

SIDE A (LENU')

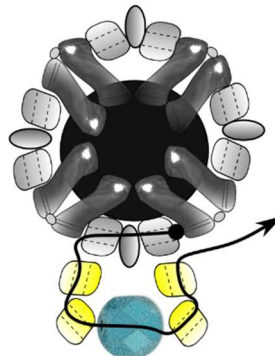

SIDE B (LILA)

Step 8. To make our earrings, work having Side A (Lenù) face up. Side B (Lila) must be face down.

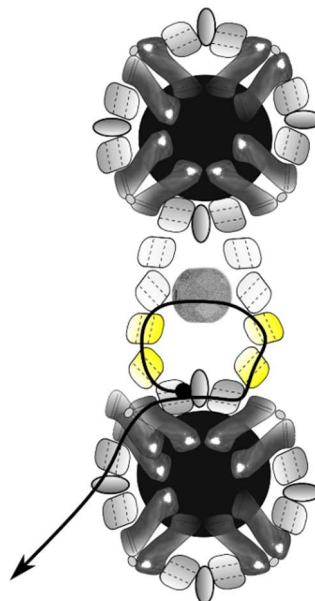

Exiting from the beads as shown in the diagram, string two Round beads 10/0 color B, one Roundelle 4x6 mm, two Round beads 10/0, go through the work several times to strenghten it.

STEP 8

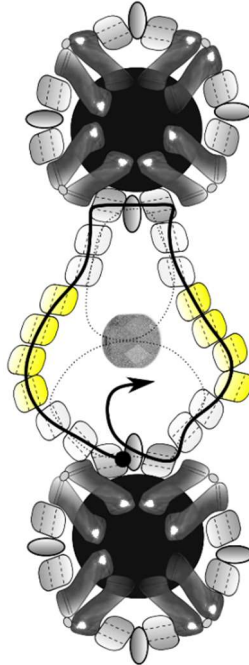

Step 9. We have to connect the second module to the first one. To make this, we have to string two Round beads 10/0 color B, enter with needle inside the Roundelle added in the previous step, add two Round beads 10/0 color B, go through the work several times to strenghten it.

STEP 9

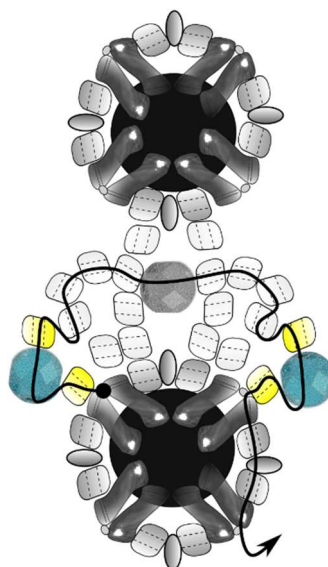

Step 10. Once the two modules are connected by the one Roundelle and beads as the previous step, add four Round beads 10/0 at both side as shown. For design purposes the beads are shown straight but they must curve on the Roundelle.

STEP 10

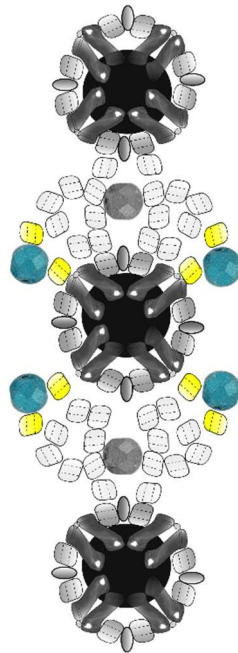

Step 11. Exiting from the Round bead 10/0 in the middle of the Z Beads as shown, string one Round bead 10/0 color B, one Roundelle 4x6 mm, one Round bead color B, go , go through *the fourth* Round Bead 10/0 from the bottom up. Repeat from the othe side.

STEP 11

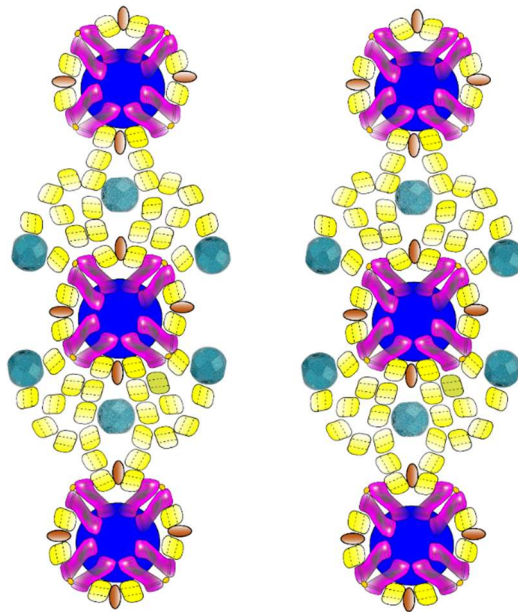

Step 12. Repeat from Step 8 to Step 11 to join the third module. Sew through the work several times to strenghten it.

STEP 12

Step 13. Make the second earring.

STEP 13

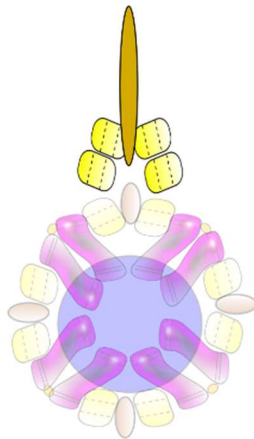

Step 14. Please take note that depending on the earring hook/french wire earring/leverback earring you are using, you may need to adjust the number of beads to make the earring attachment more harmonious.

For Leverback Earrings or similar: Exiting from the Round bead 10/0 add two Round beads 10/0, the leverback earring, two Round beads 10/0 and go through the work several times to strenghten it.

In case you would like to show the Side B (Lila) instead of Side A (Lenù), pay attention in sewing the leverback in the right position/direction.

STEP 14

Thank you so much for choosing this tutorial!

I truly hope you enjoyed making this design and that the instructions were clear and enjoyable to follow.

If you have any questions or need any additional information, please feel free to contact me. I'll be happy to assist you.

Thank you again, and happy beading!
